## SWITCHES

### 24V and 29V KNX

|    |   |
|----|---|
| 6  | LUCIA - switch panel 24v & knx "touch"  |
| 16 | ANNA carre /bande - switch panel 24v & knx with lever and LED lighting                      |
| 24 | ANNA carre/bande - switch panel 24v & knx with lever (no LED lighting)                      |
| 30 | ZITA carre /bande - switch panel 24v & knx with round push-buttons and LED lighting         |
| 38 | ZITA carre/bande - switch panel 24v & knx with round push-buttons (no LED lighting)         |
| 42 | MONA carre/bande - switch panel 24v & knx with square push-buttons and LED lighting         |
| 48 | MONA carre/bande - switch panel 24v & knx with square push-buttons (no LED lighting)        |
| 56 | LARA carre/bande - switch panel 24v & knx with flat square push-buttons and LED lighting    |
| 66 | LOLA carre/bande - switch panel 24v & knx with flat square push-buttons and LED lighting    |
| 76 | LOLA carre/bande - switch panel 24v & knx with flat square push-buttons (no LED lighting)   |
| 86 | NINA carre KNX - switch panel with levers on KNX  |
| 88 | LARA carre FLATLINE - switch panel 24v & knx with flat square push-button and LED lighting  |
| 92 | LOLA carre FLATLINE - switch panel 24v & knx with flat square push-button and LED lighting  |
| 94 | LOLA carre FLATLINE - switch panel 24v & knx with flat square push-button (no LED lighting) |
| 96 | VICTOR FLATLINE - cover plate + fixing frame (Peha Concept 45 / Legrand Mosaic)             |

### 230 V

|     |  |
|-----|--|
| 102 | LISA carre /bande- switch panel 230v with flat push-button             |
| 108 | NINA carre/bande - switch panel 230v with lever and round push-buttons |

## COVER PLATES FOR SOCKETS

|     |  |
|-----|--|
| 124 | ARNO carre/bande - Cover plate + fixing frame (Bticino Living / Light / Lighttech sockets) |
| 132 | VICTOR carre - Cover plate + fixing frame (Peha Concept 45 / Legrand Mosaic sockets)       |
| 136 | VICTOR round - Cover plate + fixing frame (Peha Concept 45 / Legrand Mosaic sockets)       |
| 138 | NERO carre - Cover plate + fixing frame (55 mm sockets)                                    |
| 140 | MAURO carre - British standard cover plate + fixing frame (socket included)                |

## LIGHTS

|     |   |
|-----|---|
| 146 | EDNA carre/bande - orientation lighting |
| 152 | TIMO - Bedlamp                          |
| 156 | SARGAS - Bedlamp                        |

## ACCESSORIES

COLOUR INDICATION

Colour is determined by the last character of the reference number  
e.g. standard design CJC0001A is in the colour black bronze CJC0001B

## **“We gave a new meaning to an everyday object”**

As a design enthusiast or an architect, you do not take a purely functional object or space for granted. You want to have a concept that exceeds the sum of its parts where every element contributes to a stronger entirety. That is why we founded CJC Systems in order to give you the means to finish your project, according to your idea in every detail.

When we promoted our first design switch in 1994 on a design fair in Paris, we got overwhelmed. We suddenly became pioneers in a niche market that we created ourselves. Suddenly people found an alternative for the plastic switch that you saw everywhere. We succeeded in giving a new meaning to an everyday object and therefore drew the attention of many design professionals and enthusiasts all over Europe.

## **“Start with pleasure, end in beauty”**

22 years later, we continue to take on our pioneer role. We look further than a beautiful design. We want you to have joy in controlling your home. That is why we integrated new technologies in our recognisable designs, such as touch-sensitive surfaces and feedback-leds. Those innovations are not a purpose “per se” but a means to have an intuitive and pleasurable control without overruling on design.

A light switch often highlights the beginning and ending of a day. We want you to start your day with pleasure and end it in beauty.

# LUCIA

6

## assembly

in universal built-in boxes  
with screws  
claws are optional

## power supply / wiring / connection 24v version

multicable type spv / svv  
8 / 10 / 12 / 14 / 16 / 20 x 0.8mm  
(0.5mm) & utp-cable cat5 – bus cable

## power supply / wiring / connection KNX version

main power supply 24v dc – 29v via KNX bus  
std. WAGO KNX connector

temperature sensor to install separately with KNX interface  
(see website for more information)

The LUCIA collection exists in three touch pad configurations. Besides the single touch pad, also a 2 and 4 touch pad version will be available. The switches can be used with impulse relays (installed in the electrical board) or with different brands of home automation systems and with a KNX system. The touch pads are able to detect several gestures from the user and process them into different outgoing signals:

- Single short tap (e.g. turning on/off)
- Single long tap (e.g. dimming, enter into another function, ...)
- Double tap (e.g. )
- Sliding (e.g. dimming, moving to another function,...)

The touch pads are translucent and are able to generate feedback light by RGB-leds, e.g.

- On/off
- Orientation

Built-in room temperature control

LUCIA

# Lever & push-button collections 24v & KNX 14

anna

zita

lola

mona

lara

nina (KNX)

## CJC offers 6 collections on low voltage.

These collections of push-buttons can be used with impulse relays or with different brands of home automation systems. The leds have different purposes: a red led gives orientation to where the switch is located (ANNA, ZITA, MONA and LARA). The yellow leds (ANNA collection) and the white leds (ZITA, MONA, LARA, LOLA) give feedback from the lighting circuit, (i.e. when the light is on, the led is on).

Every collection is available in the 14 different colour finishings and can be mounted in universal built-in boxes (CARRE series) or in BTicino built-in boxes (BANDE series).

## KNX compatibility

Every low-voltage collection and the NINA collection (1 & 2 levers) is available in a direct compatible KNX version. No interface is needed. Just plug in the bus-cable and start programming the project.

# KNX

## Functionalities

- Night & Day LED-indicators brightness adaptability
- Pressing button, 1 object: ON, OFF, TOGGLE, 1Byte values, 2Byte values, 4Byte values
- Pressing button, 3 objects: ON, OFF, TOGGLE, 1Byte values
- Pressing and releasing button, 2 objects: ON, OFF, TOGGLE, 1Byte values, 2Byte values
- Short and long keystroke, 2 objects: ON, OFF, TOGGLE, 1Byte values, 2Byte values
- Dimming and Blind/Shutter processing
- Scenarios run and save ability
- LED Staircase function, on/off delay, scenarios attribution
- Basic logical functions (AND, OR, XOR, NOT) based on 2 entries
- RGB lights programming functionality
- Blinking of leds
- Optional: Integrated Temperature and Humidity sensor

## Advantages

- + Compatible for the worldwide standard for home and building control
- + Flexible throughout the years: change commands of switches without rewiring
- + Specially developed boards for KNX, no interface needed
- + Easy wiring = easy installation = less installation costs

## Technical data

Main power supply 24V – 29V via KNX Bus

Current consumption:

4 buttons, all LEDs 100% = 10mA (29V)

4 buttons, all LEDs 10% = 4mA (29V)

Connection: std. WAGO KNX connector

Operating temperature: -5°C ... 45°C

KNX programming button and LED = on front and rear side (except ANNA & NINA)

Max. group addresses = 86

Max. associations = 86

Number of comm. Objects = 71

Application download time = approximately 30 sec
